

GLOW EVENTS:

# BOTOX PARTY HOST KIT

**CONTACT PERSON:**

Laura McDonald, BSN, RN • (608) 338-1822

---

## Welcome to Your Tox Party!

**Who is Badger Glow?**

We're highly-trained medical professionals and 100% Registered Nurses who are experts in administering injections. Your safety, satisfaction, and comfort are our top priorities. Whether your attendees are looking for a subtle refresh or a confidence boost, we'll ensure they leave glowing and feeling their best.

**Available "Tox" Products:**

Botox® • Jeuveau® • Daxxify®

**Kit Contents:**

- "Host Duties" Summary
- "What to Expect From Us" Summary
- Guest Sign-up Sheet (to confirm attendee contact information and needs)

# Host Duties

Once your party date and time have been confirmed with Badger Glow, please review the following responsibilities and timeline expectations:

## **INVITE 6-12 PARTICIPANTS**

- Consider creating an online event using your preferred social outlet
  - » Let us know so we can introduce ourselves and help answer questions!

**1-2 WEEKS BEFORE THE PARTY** (we must have all forms & info **at least 2 days before** your event): Please collect and compile all completed sign-up sheets and submit them to Laura. This attendee information allows your RN to send medical consent forms in advance of the event and establish an efficient treatment order, taking into consideration each guest's scheduling needs.

## **PARTY DAY:**

Set up your wonderful space and refreshments, review *What to Expect From Us on Event Day* (below), and enjoy your gathering!

# What to Expect From Us

## **1 WEEK PRIOR TO EVENT DAY:**

Using your completed guest sign-up sheet, Laura will contact each attendee to complete their medical consent forms and securely collect a preferred payment method. Gathering this information in advance helps ensure a smooth, efficient event—no charges are processed until the day of treatment.

## **PARTY DAY:**

Your Badger Glow nurse will arrive early with your finalized guest list and all necessary products to accommodate your party. With your assistance, they'll set up their treatment space and prepare for the day ahead.

Working from the guest list as an itinerary, the nurse will move efficiently through each appointment while providing every guest with attentive, personalized care. The group setting offers a comfortable, educational experience—allowing attendees to observe the process and feel more at ease.

Each guest will receive a one-on-one consultation, including a review of their goals, discussion of product options, and time for any questions. Throughout the entire process, your nurse will prioritize comfort, safety, and confidence.

Individual treatments typically take 30-45 minutes per person, allowing ample time for consultation, preparation, and care.
